DATED 10th June 1901

Resolved as follows:-

x x x

XI That a supplemental grant of Rs 400 for silt clearing, deepening wells &c., be sanctioned from the closing balance of the Chittal-droog Town Municipality for 1900-01.

12.6.01

office Note

Chittaldrug Presidents
letter No 1076 dy 25th June
1901

Serial 25

As per Fin. No 11/7 18-19
dy 4-5-01, a sum of
Rs 200 was sanctioned
to meet the cost of pumping
~~out~~ up water from Thimma
raikan kere tank Waddar
(Lower tank) for the use of
the people in the Chitaldrug
Town where there was water
scarcity.

S.V.H
dy 18-7-01

2. The President in his
communication No 902 dy 23.4.01
solicited sanction to a
sum of Rs 400 from the
closing balance of the Chitaldrug
Town Municipality
for 1900-1901 for silt clearing
and desilting wells etc

3. This amount also was

Sanctioned by Govt in
Pro no 1575-6 dy 6/11/01
21 71-98

Serial 26-

4. The President now
states that the whole of
Rs 600 have been spent
in deepening a few wells
at a cost of Rs 275 and
in pumping up water at a
cost of 325-8-0 and
requests sanction to a
further sum of Rs 180 for
pumping water from the Tank
bed till the end of June
1901 from the closing balance.

Submitted for orders
Dy 4/7/01

This means a supplemental
Grant for the year which

Branch Local Boards Branch

Subject Letter no 138 dt 1-8-03, from the Comptroller, regarding the adjustment, in his office accounts, of Rs 2867 being the cost of certain Water Sup materials purchased to the Ishitg town Municipality

— a —

Flag A

1 In G.O no 11380-1 / 27-171-96 dt 19-4-97, it was ordered that a moiety of the cost of the Water Supply project for the Ishitaldrug town ~~is to~~ be treated as grant-in-aid; the other moiety being treated as ~~loan~~ repayable loan.

2. Without reference ~~Contrary~~ to this order, the Comptroller, in his office accounts for June 1902, debited solely to the Muni funds a sum of Rs 2867 spent ~~#~~ for the purchase of certain water supply materials transferred by the P. W. D to that Municipality.

3. As the finances of the

municipality are in a low ebb, there being a large debit balance against it, the Comptroller was requested to report, whether, for the purpose of affording relief to the municipality, a readjustment may not now be made, in his office accounts for June 1903, by crediting it with a grant-in-aid of Rs 1433-10-6 and a repayable loan of Rs 1433-10-6.

No 317 of 23.7.03 & 7171-96 Flag B

4. The Comptroller, now, reports that the adjustment already effected in his office, was according to the instructions of the Examiner of L.W. accounts who raised the debit independently of

c to 1380 of 1/8/03

G.P. 11380-1 / & 7171-96 of 19-11-97 Flag A already quoted; and begs that a reference might be made to him (the Examiner) on the subject

Submitted with draft for approval, Dr. J 18/8/03

In this office docket no - 918 - & 7171-96 dated 24-8-03, the Examiner was requested to report on the matter. From the reply received, it is gathered that when handing over charge of the Chittaldrug Town Water Supply Works to the Sanitary

5858 of 8-9-903.

the surplus materials worth Rs 2,867-5-0 were also handed over to it by debiting the amount to the Civil Department and crediting the same to the work, the liability for the charge having been accepted by the Municipality, and opining that the amount in question may be adjusted as half loan and half grant-in-aid if the Govt so desire it

May sanction be accorded to the amount of Rs 2867-5-0 being treated partly as loan and partly as grant-in-aid, as in the case of the entire Water Supply project, and the Comptroller requested to cause the necessary re-adjustments to be made in the accounts for 1902-1903 which have not yet been closed.

Submitted with draft for approval

drafts

The above order was communicated to the President per this office docket no 1412 — H/ 10-11-03.
& H 171-96

No 305(d)7 11 03
& 1277

We now submits a list showing the details of the surplus materials in question; and states, that only a few thereof costing Rs 1411 are reported to have been utilize for the repairs and the extension of the pipe line, the rest costing Rs 21119-11-0 being held in stock; that the Municipality accepted the transfer, made by the D W D, of the materials in question, evidently on the presumption that the cost thereof would be charged to the work and credit afforded thereto, as in the case of the Future Water Supply Project, making the Municipality liable only for a moiety of the amount and treats as loan

Half of the Rs 223-13-5 may be charged to the Municipality.

This may be placed before the Board with the recommendation that a Resolution be passed in accordance therewith.

22/12/03

grant-in-aid
the other merely as a repayable loan,
Had, contrary to the expectation, the
municipality was made liable for
the full value of the materials trans-
ferred, and that the procedure as
well as, the fall of revenue in the
past two years on account of plague
in the town, and the unusual
outlay incurred towards water pump-
ing operations during the last water
scarcity in the place, have
placed the Municipality in a state
of insolvency; and requests, that,
under the circumstances, the Govt
may be pleased to direct the value
of the materials hence adjusted
as agreed upon by the Examiner
Submitted for orders as to
whether the draft already in the
file may be issued.

C Note

Second Councillor's queries on the office note on letter No 305 dt 7-12-03 from the President of the Municipality in the Ulutaladung District.

I What is the state of the Board's finances according ~~according~~ to the latest return please?

I. The financial condition of the Municipality as per annual Budget for 1903-1904 (based on the actual balances on 1-7-03 as per Comptroller's finial account is as follow.

Opening balance		Rs 7918
Estimated receipts during 1903-04		8800
Total including balance		8802
Estimated expenditure during 1903-04		6759
Estimated closing balance at the end of June 1904		5877.

I think I have more than once remarked how the Board's insolvency. Please let me have a note with a copy of my remarks. If I am

A copy of the Councillor's remarks on the Board's Proceedings dt 31-3-03 is appended.

" There is I am afraid some mistake about the opening & closing balances

not mistaken the Board is to the bad to the extent of about Rs 4000

to the Board to the bad to the extent of so large a sum as above 6000 Rs, and if so how is this to be made up within the remaining four months of the year with observation to the above effect this may be communicated to the Presdt.

According to the latest return for November 1903, received with the President letter No 336 Dy 25-12-03, the financial condition of the Board is given below:-

Balance on 31/10/03	— 4585-1-7
Receipts in Nov 1903	275-15-7
Net deficit	— 4309-2-0
Disbursements in Nov 1903	363-16-1
Total deficit	— 4672-12-1

X/

III Why should the Board pay half the value of the materials in stock

The President reports that only a few months

and not apparently

required by it.

Costing £s 447 10-0 have been utilized by the Board for the repairs & the extension of the pipe line in connection with the Kilty Water Supply works. A moiety of the cost of these materials alone may, it is submitted, be ordered to be debited to the Kilty as in the case of the cost of the entire project, the remaining materials in stock being directed to be returned to the D C S

Submitted

11/1/04

I quite agree

11-1-04

5/1/04

To the 2nd. Committee

This is a poorer municipality and it certainly cannot bear a larger burden than is legitimately its own. Let it be called upon to pay one half of the value of the surplus materials recently utilized or required for it.

8.II.04

The above order was conveyed

The above order was conveyed to the President pr Lr. No. 3064-7-2.7 171-96 dy 19-2-04

The Superintending Engineer Eastern Circle, who inspected the "Thennamankarakere" tank which supplies water to the town of Chittaldrug, in July 1903, suggested among certain improvements to be done to the tank, the removal of the pipe line direct from the tank to the Vaddas, and also the demolition of the culvert in the rear slope of the old waste-wei

The Municipal Board of Chittaldrug discussed the prop

of repairing and bringing to standard the reservoirs of Shenmanakanhere and the Vaddiw, and passed a resolution that the pipe lines and the culverts referred to should not be removed or abolished, and expressed at the same time their solicitude for the early execution of the works to improve the stability of the bank. As the Chief Engineer to whom the above papers were forwarded referred ~~the~~ to the President, to the General Depte as regards funds, the latter Officer submits ~~forwarded~~ an estimate prepared by the Executive Engineer, for Rs 2,125 and requests orders for the works being undertaken by G W S the cost being met from Provincial funds or from d° H General, as a special case.

The financial condition of the Chitaldrug Municipality as per

Comptroller's final accounts for 1902-0

and sanctioned budget estimates for

the current year, as shown below.

Opening balance on 1st July 1903 -	Rs as. p -7,408-1-0
Estimated receipts during 1903 at	+ 8,800-0-0
Total including balances	1391-15-
Estimated expenditure during 1903 at	6759-0-
Estimated closing balance	-2,367-1-0

which will be reduced to Rs-2,272

if credit of Rs 2,643-8-0 is afforded

to the ~~Board~~ Board, ~~under~~ as per G. G.

No 3061-7 dt 19-2-04 on account

of the cost of the surplus water supply materials

not required by the Municipality

Ans 29/2/04

The point for orders is

Whether under the ~~circumstances~~ circumstances

represented, a Special Grant of Rs 2,125/- ~~has~~

~~to~~ may be made from Provincial Funds

or Local Funds General for the repair of the tank & Culvert which supply water to the Chitaldroog Town or whether the amount shown be treated as supplementary to the original sanctioned Water Supply Scheme, one half of the Estimated cost being treated as Grant-in-aid & the other half as loan to the Municipality repayable in 20 years at 4 per cent interest

Sd
JJB
29/2/04

submitted to the Dewan through the 2nd Cr JJB 3/3/04

I hesitate to recommend the grant of the Board's request. The only consideration which seems reasonable and sufficiently liberal is to treat the cost of the improvements in question in the same way as the cost of the work already carried out. To this limited extent I hope Your Excellency will find it pos-

to avoid delay to the Board
I envisage that the work has
been pronounced by the Dr
urgent necessity and that

SC 48

In this office docket No. 21,571-96 dated 10/3/04, the President was requested to report whether the Municipal Board of Chitaldrug are agreeable to treat the cost of the improvements in question in the same way in which the general ~~scheme~~ water Supply Scheme of the town was carried out, one half of the amount being treated as grant-in aid and the other half as repayable loan to the Municipality.

From the President's letter now received, it is learnt that the Board thankfully accepts the above terms.

Draft requesting the Engr to point out the sources from the cost cannot be met & proceed as submitted for ~~sanction~~

14/4/04

15/4/04

Coonoor Water Supply

The Source of the Water Supply in this case is exceptionally pure. The lands in the Catchment of Timmanagalkan Kere in private occupation are some 401½ acres assessed at Rs 102. The Dy Comr should proceed immediately to acquire the whole of these lands which are of a very inferior quality and should never have been given out for occupation, as interfering with the established supply of the town. After acquisition of these lands, the destruction of the entire catchment from noxious vegetation and impurities of all kinds should be easy though very important

which should engage the care of the Dy Comr of the Nilgiris. All noxious vegetation should be eradicated, which the Dy Comr

can readily get done

2. The above being duly carried out I would dispense with filtration. This to some extent would also dispense with the need for Pure water tank. At any rate it would be feasible to dispense with the latter also, by drawing direct from the tank.

3 We have room to land the Timmanagalan Vere - we may with advantage increase its capacity, but for the present I would be satisfied with the small work Lr. Standish Lee proposes amounting to Rs 700 (exclusive of land, Jungle clearing & cutting)

4. The next item of importance is the conversion of the breached tank and wooden sluice into a Subsiding tank. I am doubtful whether such a help is required to Timmanagalan Vere for the purpose of the Chalakroog Water

Supply

supply. I would not object to this tank if it is wanted for other purposes such as watering of cattle, bathing etc. I should like to know the Dr Comr's opinion as to whether the tank is likely to be of any and what real use if it is not to be useful for the water supply. Meanwhile I would reserve the question.

5. The cost of the project in the above manner would be reduced as follows:—

Land removal of ~~10~~ vegetation and closing cattle paths in and abt Catchment of Tinnanagkan Keri	5,700
2 Silkdam	488
3 Repg of Tinnanagkan Keri	700
4 Cast Iron Pipes	17,500
5 Fountains	4,860
	28,548

I would at once sanction of Tank

estimate reduced as above and make them Govt responsible for item No 1 above. About the subsidiary tank or raising level of Jinnanna gattan Veri we can decide thereafter. Half the cost should be recovered from the Municipality by easy instalments at 3½% interest

Read letter No 522 dy 7 Dec. 406
'96 from the Secy. of the Municipality
in the Chitaloorg Dt.

Dy No 305
Vr. 7217
LF. 171-96 21/12/96

Order thereon.

In their Order No 5322-23
LF. 171-96
(21/12) 415-1897 the Govt. directed that the
instalment of Rs 762 payable
by the Chitaloorg Municipality for
~~the year~~ 1896-97, in repayment
of the loan granted for its
water-supply project, should
be included in a supplemental
budget for the current year.
As the actual opening balance,
as reported by the Comptroller, was
Rs 933 in excess of the amount
Estd in the Budget, the closing
balance for the current year would
also exceed the budgetted estimate by
an equal amount; in other words,
there would be ~~a surplus of Rs 1512~~
available ~~for~~ therefrom for fresh
expenditure. This being the
case, the Govt are unable to
understand why the Mal Board
find it difficult to make the adjustment
~~of the Rs 762 now due~~

(3562 — 2050 prescribed minimum) Rd.

the sum of Rs 1512 which is
quite sufficient to cover both the
aforesaid instalment and the
amount ~~of~~ viz Rs 622 Estd in Prop
No 41322-3
LF. 206-96 dy 7-10-97. (21/16)

indicated in the Order

of the 5th November 97.

Chief Engineer's No 5716 of 23-11-00 forwarding for opinion, the explanation furnished by Mr. Rabbada Rao, officiating Executive Engineer, regarding unsatisfactory completion of the water works at Chitaldroog town

---

Has the honor to observe that, though there has been some remissness in carrying out the works the Municipality has not much cause for complaint

complaint as some of the defects complained against were unavoidable in such carried out at a place where skilled workmen were not available, and were all rectified by this in August 1900, and no complaints since been received regarding the of the System.

II The alleged impurity of the water already been refuted by the result analysis of the water sent with Office No: 2867/563 of 6th November 1900.

Extract from Mr. K. Prahalada's Rao explanation.

× × ×

Now, regarding the complaint of the Vice President as to the unsatisfactory state of the fountains and the pipes I beg I may be allowed to say that, the statement is highly exaggerated if not groundless. The Municipality consits of nearly 18 Members. Most of these, if not all, the Vice President and the President being excepted, live in the town. Nothing could have passed or could pass without their knowledge and observance. If the fountains and the pipes were leaking in the serious manner reported by the Vice President why was the matter not brought for discussion in any of the Municipal meetings, either by the Vice President or any of the members and the opinion of the board recorded. The Executive Engineer, who is also a

member

member of the board was always being at hand, could have been very well written to and asked to rectify any short comings if there were really any. The records show no references of such sort. Neither is the work unsatisfactory.

11. Pipes, bends, washers &c. were all supplied by the Sanitary Engineer himself. The pipe laying man was also sent by him.

12. Mr. Sundram Iyer, Assistant Engineer, who had come under orders of the Sanitary Engineer to take over charge of the works from the Chitaldroog Division and make separate arrangements, apparently on this complaint of the Vice President, expressed after his inspection of the work, that there was nothing to complain of, that the slight dripping of water in some fountains was due to the wearing of the rubber washers and the

roval

rough usage they were put to by the towns people, and that he would not interfere with the arrangements already made for the completion of the work by the D. P. W. Mr. Sreenivasa Rau was also present, when this statement was made by the Assistant Engineer. The very fact of Mr. Sundram Iyer's return to Head Quarters after a very stay at Chitaldroog, which was spent mostly in inspecting the tank Vaddu and other parts of the work prones, that there was nothing the work to complain of seriously

13. The pipes are laid from the rear cistern of the old sluice There is lot of rubbish in the tank and the old sluice tunnel The water in the tank itself has got a smell of vegetation about it. Shells and small fish used to be washed formerly in the pipes and cause a bad smell in the water delivered from fountains

I ordered a copper sieve, like cap to be prepared and fitted to the mouth of the pipe. This has put a stop to these washings, to a very great extent. There are no filter beds anywhere in the line of pipes. This draw-back will have to be attended to by the Sanitary Engineer's department.

Dated, Chitaldurg
the 4th April 1901

No 814.

From

The President of the
Municipal Boards
Chitaldurg District

To

The Secretary to the Govern-
ment of Bombay, General
and Revenue Department
Bangalore

Sir,

I have the honor to state
that, owing to the scarcity
of water supply in the Chital-
durg town, a great deal
of difficulty is being felt
by people at present. The
water in the Tumme and Hankone
tank and the Lower reservoir
(water) does not reach the
sluices, and it is therefore
found absolutely neces-
sary to pump out water
therefrom in order to supply
water

water to the public. For the
purpose a probable cost of Rs 200/
has to be incurred, and there is
no provision made therefor
in the Municipal Budget of
current year. I beg therefore
that you will kindly obtain
early sanction of Govern
to the sum of Rs 200/ being
expended on the work out of the
Savings likely to be effected
in the Municipal Budget of the
current year. Accounts and
vouchers for the sum expended
will be submitted in due course.

I have the honor to be
Sir,
Your most obedient Servant
[illegible]
President

Office of the President of Municipalities in Chilaldewog District

Dated 23-4-1901

To,

The Secretary to the Government of Illysone - General and Revenue Departments.

Sir,

In Continuation of my letter No 814 dated 4th instant soliciting that in view of the difficulty felt by the inhabitants of the Chilaldewog Town on account of water a sum of Rupees 200/- be kindly sanctioned out of the savings likely to be effected in the current years' budget for supplying water to the townsmen from the

L. 1799

the Timmannayakankere and
the lower reservoir (Vaddu)
by means of pumping, I have
the honor to state that as
the difficulty for water is
increasing from day to day,
it has become necessary to
remove the silt in some
of the wells and to deepen
them to provide for an
adequate supply of water
both for drinking and
other purposes to the public
There being no provision
in the budget to carry on
the above works, I beg
that a further sum of
Rs 400 be kindly sanctioned
from the closing balance
for silt clearing, deepening
wells and similar purposes.

2 The deficiency in the
estimated closing balance
will

will, I beg to suggest, be made up by a corresponding reduction in the amount provided in the ensuing year's budget on account of Public Works unless by excess of the actual receipts over estimates and the savings effected under the several heads of expenditure at the end of the year make up the deficiency in the prescribed minimum balance.

No. 1074.

From

The President-Municipal
Boards, Chitaldurg.

To

The Secretary to the Govern-
-ment of Mysore, General
and Revenue Departments
Bangalore

Sir,

With reference to Govern-
-ment proceedings No. 16575-6
dated 14th instant "A 171-96
according sanction to a
Sum of Rs 400/ being expended
from the closing balance of
the Chitaldurg Municipality
for current year for deepening
wells to secure an adequate
supply of water in some parts

of the town, I have the honor to State that out of the above Sum, Rs 275 have been appro-priated for deepening a few wells, and the balance has been utilized to meet the expenditure of Rs 125/8/- incurred up to the end of May 1901 in pumping up water of the Kere Vaddi (lower tank) in excess of the amount of Rs 200/ Sanctioned for the purpose from General Savings in the current year's budget of the town in Proceedings of Government no. 14718-19 dated 4th May 1901 F. No 171-96.

2. As the tank has not received a further supply of water, pumping has still to be continued. A further Sum of Rs 180/ would be required for pumping up water from the Vaddi, till the close of the current official year. I beg therefore that Government be pleased to accord Sanction to the above Sum being expended

on the work from general Savings in addition to the expenditure of Rs 325-8-0 already incurred and paid on the above account.

I have the honor to be
Sir,
Your most obedient Servant

No. 185

From

M. Narain Rao Esquire
President, Municipal
Board, Chitaldrug

To

H. V. Nanjundaiya Esquire
M.A.M.L.
Secretary to Government
of Mysore, General and
Revenue Departments
Bangalore.

Sir,

Adverting to Government
Proceedings No. 2610 (Ve) dated
12th instant requesting me to report
the actual expenditure incurred up
to 30th June 1901 on account of
pumping water from the Vaddu
in Chitaldrug Municipality, I
have the honor to state that the
outlay incurred on the work till
the end of June 1901 aggregated
Rs 460-8-4 (of which Rs 402/-
were paid and charged
in the accounts of 1900-1901 and
the rest remained unpaid at
the close of that year

2

2. As, however, the official year came to a close and the difficulty for water did not cease owing to want of rain, it was found necessary to continue pumping water from the Vaddu till such time as the tank received sufficient supply of water, and for this purpose, a fresh estimate for Rs 200/ was sanctioned by me for the current year from the amount available out of the current years budget grant of Rs 2800/ under Public Works. The whole of the amount has been already expended (1) for payment of the balance of Rs 58/8/- which remained unpaid at the close of June 1901, and (2) for payment of the coolies for the month of July 1901, viz, Rs 139-8-0

3. As under the present circumstances, it is difficult to say how long the present arrangements has to continue and what further amount would be required for the purpose. I beg that general sanction

yours

may kindly be conveyed to
continuance of the pumping
operations until such time as
they may be indispensably
required and to the cost thereof
being met from the closing
balance of the current year on
monthly notifications of sanction
signed by me, inasmuch as
no further funds can be made
available for the work from
the current year's grant under
"Public Works".

I have the honor to be
Sir,
Your most obedient Servant

Bangalore

Sir

Adverting to Government
Proceedings no 6303 / dated 17th
L7 171-96
ultimo regarding the cost of
pumping water from the Haranji
Vaddu in Chitaldrug municipality
for the use of the townspeople, I
have the honor to state that no
fixed salaried establishment is
necessary for the purpose nor is

any maintained at present. The work is being done by the employment of 12 coolies at 6 annas each per diem. Their wages amount to Rs 135/- or Rs 1401 per month according to the no. of da in the month. The Tummanmaiyakan tank has received no supply of from the recent rains while the Va or the reservoir below it from whic water is being pumped and supplie to the town through pipe lines - contains water enough to last only for 2 or 3 months more.

2. As under the existing circumstances it is difficult to state how long the pumping has to continu and what further amount would be required therefor sanction was solicited to the expenditure payable being met from Savings, but as Government have objected to the above proposal, further funds

required

required to meet the cost may I beg to suggest be appropriated from the sum of Rs 15886/- provided under XI Miscellaneous 'Repayment of loans' pending provision being made for the latter charge in the revised Budget.

I have the honor to be
Sir

Office of the Deputy Commissioner
Chitaldrug Destrict
Dated 7th June 1902

No: 987 En:1

From

M Naram Rao Esquire,
President of the Municipalities,
Chitaldrug District

To A V. Nanjundayya Esquire M A, M L
Secretary to the Government
of Mysore, General and
Revenue Departments,
Bangalore.

Sir,

I have the honor to state that an estimate amounting to Rs: 1060/- was sanctioned by Government in Proceedings no. 15529-30 & 7 3:99 dated 21st May 1901 for constructing a dam with a head sluice across the feeder channel of the fresh-water Honda at Chitaldrug and for stopping leakages in the bund of the Reservoir The latter work, costing Rs 150/- was undertaken and completed in 1901, but the construction of the dam was not put in hand owing to paucity of funds in the Municipal Budget.

2 The water-supply tank and the Vaddu behind it are now quite dry in consequence of which the townspeople are put to great difficulties in regard to water. The wells in the town have failed and owing to the heavy

heavy drawn on it, the fresh water Honda known as Hutchangamma Honda near Burgana Hatte is also running dry The south-west Monsoon is always scanty in Chilaw and there is therefore no hope of either the water supply tank (Thimmanayakankere) or the Vaddu behind it filling or receiving any appreciable supply of water before the next North-east monsoon Under such circumstances, it has become inevitably necessary that as much water as could be got from the halla above the Hutchangamma-na Honda during the South-west Monsoon should be stored in the Honda For this purpose I beg to recommend that the dam provided for in the estimate referred to para 1 may be ordered to be constructed at once by the agency of the Department of Public works

3 As the Municipal Budget cannot afford to defray the cost of the dam in question (Vide Government Proceedings 16918-21 Dated 17th April 1901 & J 22 1901) I beg that, as a special case, it may be met from the Sanitary or the D P W Budget

4 The favor of very early orders to the D. P W for commencing the work is requested

5 The Sanctioned estimate for Rs 1060/- is herewith submitted for reference and obliging return

I have the honor to be,
Sir,
Your most obedient servant,
M Karunaratne
Deputy Commissioner
Chilaw
Chilaw 9 District

Enclosure No.

Correspondence ending with Deputy Commissioner's no 110 of 17 9 02 regarding a dam to feed Hutchangi Anda

" " "

Has the honor to state that an attempt to manufacture bricks for the above has failed owing to rains. As some rains are still expected, it will not be renewed for another fortnight or so.

2 In meanwhile there are two points that deserve

notice. The first one is, the dam is provided with a scouring sluices. This will certainly prevent a large quantity of sand from entering the Handa, but some must. Moreover, there is a large accumulation of silt between the site of dam and the entrance of feeder to the Handa. This silt seems to have accumulated against a wall built at the latter point along with a dam a little below the site now selected. Both of these works have failed. The rains on the hills seem to bring enough of water to the Handa and it seems to undersigned that the feeder now proposed will not be of much use, which tending to silt up the Handa in which, silt as Deputy Commissioner is aware, has already large by accumulated.

3 The second point is that the dam seems to require apron which may involve an excess of Rs 200/-

4. Undersigned will be obliged to know whether it is his opinion that the dam should be built in spite of the disadvantage noticed in para 2 of the above

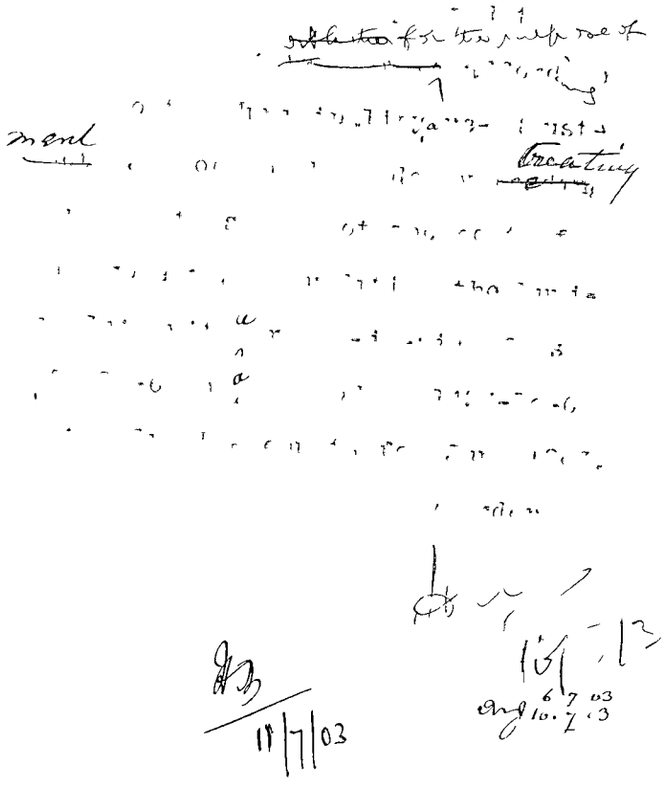
In forwarding herewith an extract of para 2 from the Memo on the financial condition of the Chitaldrug Municipal Council which recommended the revised budget estimates of the Municipality for 1902-04, has the honour to request that the Controller will be good enough to set the letter the sum of Rs 2800 three thousand eight hundred rupees to credit which has been debited in the Municipal accounts for June 1903 (final) represents the cost of the materials purchased for the execution of the town water supply scheme and if so, why the same was not in the absence of the latest revision or special sanction, debited to the Municipal funds as stated by the Commissioner without affording credit of the sum as

Mark



11/7/03

Read 11/7/03

Memo re the finances of the Chitaldrug municipality for the past 10 years, ie, from 1892-93 to 1901 02 both years inclusive

The Statement appended shows the receipts and expenditure and also the opening and closing balances for the past 10 years from the above it will be observed that the average normal income from all the different permanent items of municipal revenue is Rs 8258 while the estimate income for 1903-04 is Rs 8800/ or Rs 542 more than the average revenue for the past 10 years It will thus be seen that none of the items of receipts is susceptible of any further increase.

2. At the close of 1899-1900 there was a balance of Rs 1,128, but owing to a decrease in the revenue under Octroi and other fluctuating items in 1900 01, the balance at the end of that year was reduced to Rs 1909 or in other words it was less than the minimum (1/4th the receipts) by Rs 965. At the close of 1901-02 there was a deficit balance of Rs -(4980). In the preliminary Cash account for June 1902 audited by the Comptroller a minus credit

and debit of Rs 2867 was shown on the side of receipts as well as expenditure towards the value of materials issued and taken over to the Municipality in connection with the water supply scheme. In memo no 978 dated 2, 4th January 1903 intimating the adjustments to subsequently made in the books of his office for June 1902 (final) the Commissioner showed a plus debit of Rs 2867 on the side of expenditure on account of water works but omitted to give credit to a corresponding amount on the side of receipts to set off the minus credit referred to in his preliminary account for June 1902. This reduced the balance by Rs 2867 which gave rise to a deficit of Rs 4760/-. This deficit was further increased by an outlay of Rs. 2113 incurred on account of water pumping operations and other unforeseen expenses.

Yet another disturbing cause was the large decrease under Octroi revenue owing to the prevalence of plague and the consequent dislocation of traffic & trade consequent to the —

amount of Rs 2867 subsequently debited in the books of the Comptroller's Office as aforesaid, the deficit at the end of June 1903 would have been only Rs – 2113 as per particulars given below

Receipts			Expenditure		
Budget Head	Items	(actual) amount	Budget Head	Items	actual amount
I	Cesses	3380	I	Interest	621
II	Taxes on houses etc	1445	II	Head Office	206
VII	Mohalarfa	790	III	Collections	596
VIII	Rents	879	IV	Conservancy	3291
IX	Fines	6	VII	Lighting	489
	Miscellaneous	2997	VIII	Public Works	5371
			IX	Charitable grants	328
	Total	91197	XI	Miscellaneous	2717
	Opening balance	1909			
				Total	13519
Total income balance		11406		Closing balance	– 2113

The above deficit (viz – Rs 2113) when taken with the sanctioned receipts and expenditure for 1902–03 will leave a minus balance of Rs 1606 at the close of June 1903 Deducting this from the Estimated receipts (Rs 8800) for 1903–04, the sum available for expenditure amounts to Rs 71941, but the expenditure as formerly estimated

the annual provision of Rs 1586 omitted under repayment of loans for the year is Rs 8095 or Rs 7061 more than the funds available. The provisions made under most of the heads of expenditure being absolutely necessary only a small reduction of Rs 336 under Conservancy and miscellaneous as detailed in the margin and Rs 200 under eighty is proposed leaving the estimated expenditure for the year 1903 04 income to Rs 15559 still leaving a deficit balance of – Rs 365. If the payment of this annual instalment of the loan to be repaid for 1903 04 cannot be postponed, the deficit at the end of June 1904 would rise to Rs 1951.

Budget Head	Item of Charge	Provision originally made	Reduction now proposed	Re-provision
IV Conservancy	Niganti on Rs 5/- a month (now proposed to be discontinued with)	60	60	
	1 First Class Surveyor on Rs 5/- (to be discontinued with)	60	60	
	Hire of Cart	1080	1080	
	Total Conservancy	3408	180	3228
XI Miscellaneous other items	Karanji maali on Rs 6 to be dispensed with		72	
	Honda waters on Rs 4/-		48	
	Natural garden waters on Rs 3/-		36	
Total Miscellaneous other items		724	156	568
Total Reduction			336	

In view of these unavoidable difficulties the Board beg to solicit that Government be pleased to [illegible] this to the additional

to the loan already sanctioned and to make it repayable in 20 instalments

3. Budget Estimates as now modified will stand as follows:- -

Budget Head	Items	Amount originally Estimated	Amount as now modified
	Receipts		
I	Octroi	3900	3900
II	Taxon houseste	1600	1600

OFFICE OF THE COMPTROLLER, MYSORE GOVT

Bangalore, 1st August 1903 1939

From

E. R. SUBRAYER, Rsq.,

Comptroller, Mysore Govt.

To A. V. Ranjoondayya Esquire

The Secretary to the Govt. of Mysore,

General & Revenue Depts.,

Sir,

With reference to your docket no 3-
2871
dated 23d July 03, I have the honor to stat
that Rs 2867 referred to therein represent
the Value of Water Supply materials transf
by the Public Works Department to the
Chickaldroog Municipality. The debit
having been raised by the Examiner of
Public Works Accounts in his Exchange
Accounts with this office, the President
was requested to inform if he was prepare
to accept the Charge and as he accepted
it the adjustment was effected on the
expectation that he would see to the proper
provision in his Budget to meet the
Expenditure.

2. The debit for the amount having been
independently raised by the Examiner
without any reference to its Connexion

with the loan sanctioned in Government
Pro: No. 11380-1 SLF dated 4th April 1897. There
LF 171 96
was no occasion to raise a set off on the
receipt side of the municipal accounts, as
a grant-in-aid for one half and a loan
for the remaining half.

3. The treatment of the charge in question
as part of the outlay on account of the
Water Supply project referred to in Govern-
-ment Pro: No 11380-1 dated 4th April 1897
LR 171-96
would require its similar treatment in the
books of the Examiner of Public Works
Accounts, at whose instance, the charge
was adjusted by this office. I beg therefore
to suggest that a reference may be
made to him on the point.

I have the honor to be
Sir
Your most obedient Servt

Enclosure No.

With reference to his docket No. 918 SC41 of 24th August 1903, L.F.171-96 enquiring as to why the expenditure of Rs.2,867/- incurred in the purchase of water supply materials to Chitaldrug Town, was debited entirely to Municipal Funds, has the honor to state that the estimate of Rs.29,248/- referred to in Government Proceedings No. 11380-1 SC5 L.F.171-96 of 19th April 1897, expenditure against which was sanctioned to be treated as a Grant-in-Aid and a loan in equal proportions, does not provide for the expenditure of Rs.2,867/- under reference and the amount was not accordingly deal with under the procedure applicable to the outlay on the project of supplying water to the Town of Chitaldroog.

MGCPB—50 rcams—6 12-02

The debit to the Civil Department in the month of June 1902 was made in accordance with the enclosed copy of sanction, the liability for the charge having been accepted by the Municipality.

The amount in question is adjustable as half loan and half Grant-in-Aid or the approval of Government to the treatment of the charges for those extra materials supplied under the procedure which has been ordered to be applied to the outlay on the work of supplying the Town of Chitaldroog with water.

Municipal President's Office
Chitaldrug District
Dated Chitaldrug 7th December 1903

From

A Ramanujacharya Esquire,
President of Municipalities
Chitaldrug District

To A V Narayanaraya Esquire Mo A Mo L.
Secretary to the Government of
His Highness the Maharaja of Mysore
General and Revenue Departments
Bangalore

Sir,

Adverting to your docket No 1412 - 53 dated 7 171-96 10th ultimo, on the subject of giving credit to a sum of Rs 2867 5-a in adjustment of the value of materials handed over to the Chitaldrug Municipality in connection with the town water works, I have the honor to submit herewith, for the information of Government, a list showing the details of the surplus materials transferred to the Municipality and their value as given by the Public Works Department and to state that, of these, only a few materials are reported to have been utilized since their transfer for the necessary repairs and extension of the pipe line at Chitaldrug and that the rest are now held in stock

2 As regards the liability thrown upon the Municipality for their full value, I beg to state

that, when handing over charge of the water works two and and a half years ago to the Munic-
-apality for their future up-keep and maintenance the Public Works Department transferred the materials to the Municipality, which were accordingly taken possession of at the time Subsequently in July 1902, the Executive Engineer, Chitaldrug Division, sent an advice of transfer for the Value of these materials and demanded an acceptance of transfer therefor in adjustment of the Cost On receipt of a certificate from the Vice President on account of the materials received by him from the Public Works Depart-
-ment, this advice of transfer appears to have been accepted evidently on the presumption that the transfer in question formed part and parcel of the project and that Consequently the expenditure in question would be Charged to the work and credit afforded thereto as in the Case of the entire project, making the Municipality liable only for a moiety of the amount and treating it as a loan repayable within the prescribed period; but Contrary to this expectation, the Municipality is made liable for the full value of the materials. This has reduced the Municipality to a State of insolvency from which it can never hope to be

relieved without the generous aid of the Government. I beg, therefore to strongly recommend that in view of the depressed circumstances under which the Board is laboring, the heavy deficit balance caused by the debit of the full value of the articles in question, the fall of revenue during the past 2 years on account of plague and the unusual outlay incurred towards water pumping operations during the last water scarcity in the town, the Government be pleased to direct the value of the materials being adjusted as now agreed upon by the Examiner, Public Works Accounts in Mysore, and authorize the Comptroller to afford necessary credit for the amount to the Municipality. A Copy of the Boards' resolution on the subject is Enclosed.

I have the honor to be

Sir,

Your most obedient Servant,

P. Chandrasekhara Iyer

Chitaldrug Division

To

A. V. Narayanaraya Esquire M A, M L.
Secretary to the Government of His Highness
the Maharaja of Mysore, Ex^t and Revenue
Departments, Bangalore

Sir,

In submitting herewith, a copy of the Inspection note dated 6th July 1903 on the Thimmanna naikan kere Reservoir by the Superintending Engineer, Eastern Circle, suggesting certain improvements to the bund of the tank, (2) the removal of the pipeline direct from the tank to the Vaddu and (3) the demolition of the culvert in the rear of the old waste-weir, I have the honor to state that the Superintending Engineer, Eastern Circle,

inspected

inspected the "Thimmamaikanthe" tank which supplies water to the town of Chitaldrug, in July 1903 and suggested among certain improvements to be done to the tank, the removal of the pipeline direct from the tank to the Vaddu, and also the demolition of the culvert in rear slope of the old waste - weir. This subject was placed for consideration at the meeting of the Chitaldrug Town Municipal Board held on the 26th October 1903, and a Resolution was passed to the Effect that the pipeline and the culvert referred to in the above should not be removed or demolished as suggested by the Superintending Engineer, Expressing at the same time the Solicitude of the Board for the Early Execution of the works already Estimated for, to improve the Stability of the tank (Copy of the Board's Resolution herein Enclosed)

2. Accordingly, a reference

was then made to the Chief Engineer
through the Superintending Engineer for
carrying out the remaining portion
of the works enumerated in para IX
of the Superintending Engineer's Inspection
Note, with a request that the Cost
thereof be met Entirely from Provincial
Funds as the Municipality could not bear
this extra charge, owing to the impoverished
Condition of its finances or that the
present Estimate in the case of the
above proposal being found impracticable
it be treated as supplementary to the
Original Sanctioned Water Supply Scheme,
one-half of the Estimated cost being treated
as Grant-in-aid, and the other half
as Loan to the Municipality repayable
in 20 years at 4 per cent.

3 In reply to the above, the Chief
Engineer stated in his No 6129 dated
25th November 1903 (Copy herein Enclosed)
that all proposals for financing

Municipal.

Municipal works should be referred to Government in the General Department for orders.

4. It will be seen from the foregoing Correspondence that the works to be executed to the Tank and Vaddu are very Essential. and that the Municipality is not in a position to undertake them, at present owing to a large deficit in its finances.

5 I therefore beg that Government may, Considering the urgency and importance of the work, be pleased to order the undertaking of the work by the public Works Department from provincial funds or Local funds General as a special case.

6 The Estimates with the plans and report for the above works received from the Executive

Engineer

Engineer, Chitaldrug Division, is
submitted herewith for the information
of Government and obliging return.

I have the honor to be,
Sir,
your most obedient Servant

Office of

Proceedings of the meeting of the Chittaldrug Town Municipal Board, held on Monday the 26th October 1903.

× × × × × ×

iv Read letter No: 3868 dated 1 8 1903 from the Superintending Engineer, Eastern Circle, forwarding for consideration copy of his inspection note, with the Chief Engineer's remarks thereon, on the Timmanayankan tank, and the vaddu below it, suggesting the removal of the pipe line from the tank to the vaddu, and the demolishing of the Slabbed Culvert immediately in rear D (Old waste weir) which gives access to the shrine at Q, and which blocks the discharge over D.

Resolved, after a personal inspection

of the Timmarayakan kere and its connected water works that it is not considered advisible to remove the pipe line which, besides serving other advantages, answers the purpose of serving the town with pure drinking water direct from the Tank when the water from the vaddu, C is contaminated and that the culvert immediately in rear of D. should remain in tact as it has stood the test of the unusually heavy rains this year and serves as a passage not only to the Shrine referred to, but also for foot passengers and pack bullocks, resorting to the Chitaldroog weekly market, from Sondekola, Uppanayakanhalli and Hal Kyathanahatti villages. The Board further express their solicitude for the early execution of the works already

already estimated for to improve the Stability of the Tank.

(Signed) A. Ramanujiengar
President.

No 6354. Dated 19th November 1903.

Superintending Engineer's No. 58. of the 9th instant, forwarding Copy of letter R.O. 166 of the 31st ultimo, from the President of the Municipalities, Chittaldroog District, together with a Copy of the Board's resolution regarding the improvements suggested by the Superintending Engineer to the Chittaldroog Water Supply Reservoir, also Copy of

of No. 5810 of the 9th instant to the address of the Executive Engineer in the matter of modifying the estimate now under preparation, for the above improvements .. - - .. ———

With reference to the above, has the honour to request the Superintending Engineer, will be so good as to inform the President of the Municipality with reference to his letter No. 166 of the 31st ultimo, that as regards meeting half the estimated Cost of the works suggested to be carried out for the improvement of the water Supply — Reservoir, as loan to the Municipality to be repaid in 20 years at 4%, it will not be possible for the State to grant any loans to Municipalities for Sometime to Come under existing and prospective financial Conditions.

vide, Government Proceedings No 910-L-7-262/96 dated 21st July 1900, - and that all proposals for financing Municipal works may therefore be referred to Government in the General Department for orders as there is no provision in the P.W. Budget for — works of this class, which cannot be Considered by this Department unless a Special grant is Sanctioned for the purpose by the Municipality. —

Read :-

Correspondence ending with letter No 305 dated 7th December 1903 from the President of the Chitaldrug Municipality regarding the debit made by the Comptroller to the Municipal Funds of the Town of Chitaldrug of the sum of Rs 2867-5-0 being the cost of certain materials connected with water supply transferred by the D.P.W.

Order thereon No -----

In para 2 of his Memo dated 22nd June 1903, the President stated that the Comptroller , in his accounts for June 1902 (final) debited in full to the Municipal funds the sum of Rs 2867-5-0 being the cost of certain Water supply materials transferred by the P.W.D. to that Municipality without affording corresponding credit on the side of receipts under " LOans and Grant in-aid " as in the case of the water supply project .

2. The Comptroller, who was asked to report the circumstances under which the amount was debited to the Municipality, stated that the adjustment of Rs 2867-5-0 referred to was effected in his office according to the instructions of the Examiner P.W.A. who raised the debit , independently of Government Proceedings

[illegible] dealt with [illegible], and that a reference might be made to that Officer on the subject.

3. The Executive Engineer, P.W.A. stated [illegible] during the course of the [illegible] Water Supply Scheme to the Municipality, the surplus materials worth Rs [illegible] were handed over to the Municipality by entering the amount in the Civil Deposit, and crediting the same to the Work, the liability for the ultimate recovery being accepted by the Municipality and that the amount in question might be adjusted as half ~~loan~~ loan and half grant-in-aid ~~if the Government so desires~~.

4. The President now reports that only a few of the surplus materials in question, costing Rs 447-10-0 were used for the repairs and the extension of the pipe line in the Municipality, the rest costing Rs [illegible] were held in stock; that the Municipality accepted the transfer made by the P.W.D. of the materials only on the presumption that the cost thereof would be charged to the Works and credit afforded thereto, as in the case of the entire water supply project, making the Municipality liable only for a moiety of the amount as loan, and treating the other moiety as grant-in-aid; that contrary to the expectation, the Municipality was made liable for the full value of the materials transferred and that this procedure

as

On the ground that
the Municipality is too
poor to bear the Cost.

With reference to the above
I have the honour to state
that the only concession
which seems to Government
reasonable and sufficiently
liberal is to treat the cost
of the improvements in
question in the same way
as the original sanctioned
water Supply Scheme of
the town, one half of the
amount being treated as
grant-in-aid and the
other half as loan to the
Municipality repayable in
20 years at 4 per cent interest
per annum

I request therefore
that the President will be
good enough to state

half as loan to the Municipality repayable in 20 years at 4 per cent interest per and requesting to state whether the Municipal Board of Chitaldrug are agreeable to the ter &c.

With reference to the above, has the honor to state that the subject was placed before the meeting of the Municipal Board held on the 30th ultimo and a resolution passed to the effect that the Board thankfully accepts the concession which the Government proposes to show in the matter. An extract from the Proceedings of the Board is herewith forwarded for the information of Government.

President
Municipal Board
Chitaldrug District

Proceedings of the meeting of the Chitaldrug Town Municipal Board held on Wednesday the 30th March 1904

× × × × × × × ×

Read docket No. 3454 / L.7.171-96 dated 10th March 1904 stating, with reference to this office docket No. 377 dated 27th January 1904, regarding the proposal to meet from Provincial Funds, the cost of bringing to standard the reservoir of Thimmanayakankere, that the Board's request cannot be granted and that the only concession is to treat the cost of the improvements in question in the same way as the original sanctioned water supply scheme of the town, one half being treated as grant-in-aid and the other half as loan to the Municipality repayable in 20 years at 4 per cent per annum and requesting to state whether the Municipal Board of Chitaldrug

are agreeable to the terms specified above.

Resolution – The Board thankfully accepts the concession which Government proposes to show in the matter

Office Draft.

Progs. of the Govt. of H. H. the Maharaja of Mysore.

Read:— (Proceedings)

ending with letter No 513 dated the 2nd April 1904, from the President of the Municipalities for the Chitaldrug Dt. submitting for sanction an estimate for Rs 2,165 for the repairs and improvements to be executed to the Channarayakere Tank Bundh, which supply water to the Chitaldrug Town, Municipality

—do— ×

Order thereon No 4363–5 / 2171–96 Dated 14/5/04

The proceedings submitted with his letter No 397 dated the 29th January 1904

at a cost for of £2120 for

forming and bringing to

a standard the reservoirs of

the Bank and the Waddon

referred to, and proposed that

~~to incur~~ the cost thereof be met as a like

Grant from Central

Funds or from Local Funds, General.

as a special case, as ~~the ground that~~

the Municipality ~~is~~ are too poor

to pay for the work which

the Superintending Engineer

considers urgent.

As to the President's proposal,

to relieve the Municipality

entirely of the cost did not

commend itself to Government, who were requested to report

~~if the Board were~~ whether

~~were at all they are~~ willing that

~~be at~~ the cost of the improvements should be treated

in the same way as the cost of the

original water Supply Scheme,

of the Town, one half being

treated as a grant-in-aid &

the other half as a loan, repayable

20 years at 4 per cent interest

he was requested in this office docket no 3454 L.G. 171 96 of the 10th March 1904, to report if the Municipal Board are agreeable to accept the terms

3 The President now reports that the Board are agreeable to the terms proposed. The Government are accordingly pleased to sanction the estimate for Rs 2125, a moiety of which will be charged to the Municipality as a loan repayable in 20 years at 4 p.c. interest, the other moiety being treated as a grant-in-aid as in the case of the original project sanctioned in G.O. no 113Eo-1 L.G. 171-96 dated the 19th April 1897.

4. The work should

e & o. by the Public
Works Department. The Chief
Engineer is requested to adjust
funds for this work from the next
years Public works grant if the same cannot be met from the
grants sanctioned for
current year.
